President, Mumbai And Nhava-Sheva Ship Agents' Association

Sir,

Sub :- Testing and periodical examination  
of the lifting appliances.

Recently, on one of the vessels after berthing, damaged runner wires of the vessel's crane were replaced and the said crane was put into use immediately without obtaining certification from the Competent Authority for the repaired crane, in contradiction to Sub Rule (1) of the Regulation 41 of the Dock Workers' (Safety, Health & Welfare) Regulations 1990, which reads as under:

**“Before being taken in to use for after it has undergone any alterations or repairs liable to affect its strength or stability and also once at least in every five years, all lifting appliances including all parts and gears thereof, whether fixed or movable, shall be tested and examined by Competent Person in the manner set out in Schedule – I.”**

In view of the above, you are requested to advise your members to strictly comply with the Sub Rule (1) of the Regulation 41 of the Dock Workers' (Safety, Health & Welfare) Regulations 1990, to ensure safety and avoid any untoward incident.

Yours faithfully,

(A.S. THOSAR)  
SR. DY. TRAFFIC MANAGER  
INDIRA DOCK
