Indian Ports Association

Empanelment of Consultants for Major Ports

1. INTRODUCTION

India's ports comprise of 12 major ports and around 200 non-major ports along the coast and islands. The Major Ports except one i.e. Kamarajar Port (Ennore) are managed by the respective Port Trust Boards and the Kamarajar Port is in the form of Public Limited Company. All the Major Ports are administered by the Central Government under Ministry of Shipping. The total volume of traffic handled by all the Indian Ports during 2014-15 was 1052.00 million tonnes and the major ports account for around 55% of total sea-borne trade. The Government of India has formulated "National Maritime Agenda 2010-20" in which, a number of development projects has also been identified under five projects heads viz. deepening of channels, construction and re-construction of berths, procurement / modernization of equipments, hinterland connectivity and various other developmental works to be taken up, in order to meet the projected traffic and estimated capacity. The expected investment for the Major Ports from 2010-2020 is 127942.35 crores.

The detail of the expected investment under the National Maritime agenda is as under:

Sl. No	PROJECT HEAD	No. of Projects	Project Cost (Rs. In Crore)
1.	Port Development	36	70,178.19
2.	Port Modernization	32	9,982.80
3.	Port Led Development	33	1,50,657.80
4	Shipbuilding, Ship Repair and Ship Breaking	13	9,560.24
5.	Maritime Education, Training and Skill Development	4	1,191.50
6.	Inland Water Transportation and Coastal Shipping	27	7,414.14
7.	Investment Opportunities in Maritime States	46	37,754.00
8.	Cruise Shipping and Light House Tourism	9	3,202.48
9.	Hinterland Connectivity and Multimodal Logistics	36	1,13,376.00
10.	Green Port Initiatives	4	419.00

	TOTAL	240	4,03,736.20
--	--------------	------------	--------------------

Around 240 projects in the maritime sector for investment have been short listed. List of these projects are listed at **Annexure-I**. To execute these projects, Ports would require the services of the consultants to assist the Ports in various activities like preparation of Feasibility / Project reports, tariff proposals, appointment of transaction advisors & independent engineers, preparation of EMP reports, and project monitoring etc. To this endeavor, Indian Ports Association on the direction of Ministry of Shipping has been mandated to prepare a panel of consultants for the various types of consultancy services, which may help the Port Trust in speedy selection/ appointment of consultants as and when required.

The panel of consultants will be prepared through assessment of technical and financial capacity for various disciplines of consultancy services that may be required by the Ports with reference to the estimated cost of the projects. The panel so prepared will be valid for three years from the date of engagement. However, the application for addition to the empanelled list it will be done based on fresh RFQs published in leading newspapers / website of IPL for Transaction Advisors once in every six month. In case of deletion from list the same would be owing to unsatisfactory performance as per contract with individual empanelled TA advisors .

2. Objective

The objective of this RFQ is to prepare a panel of consultants for use by the major ports for the identified consultancy services. The individual Major Port seeking consultancy on their port activity shall then invite competitive price offers from the panel of Consultants so prepared for the respective activities and at that time shall also prescribe Terms of Reference and Terms of Payment.

3. Broad Role of Consultants

Technical consultants are normally required for preparing Techno-economic Feasibility Reports, setting performance targets and determining investment needs. They are expected to be well conversant with the physical aspects of the Port infrastructure under consideration. The Consultants should be capable of providing a range of skills and services including general and

architectural design, costing and quantity surveying, planning and traffic studies, technical feasibility studies and reviews, life cycle costing and analysis, and project monitoring and management. In short, they shall be instrumental in conceptualization of the project till completion. However, while inviting the RFP, concerned Port will spell out the detailed scope of work of consultant.

4.Entering into Agreement

- 4.1 On selection of the consultant, the concerned Major Port Trust" will enter into agreement in the form prescribed by them. The format of agreement will be enclosed by the Port Trust while seeking financial offers.
- 4.2 The invitation of the applications for enrolment as Consultant for various Port activities above mentioned will have a stage of pre-bid conference before submission of final application for evaluation. The Pre-Bid conference will be held on 06/03/2017 at 3.00 pm (1500 hrs) at IPA, New Delhi.
- 4.3 The applicants, who have submitted application fee will only be allowed to participate in the pre-bid meeting. All the queries must be submitted upto one day before the pre-bid meeting. No fresh queries will be allowed thereafter. The clarifications will be issued as early as possible so as to leave atleast 10 days time for submitting the bid.

**COMMENTS AND SUGGESTIONS ON THE TERMS OF REFERENCE AND ON
FACILITIES TO BE PROVIDED BY THE EMPOLYER**

1. on the Terms of Reference

[Suggest and justify here any modifications or improvement to the Terms of Reference you are proposing to improve performance in carrying out the Assignment/job (such as deleting some activity you consider unnecessary, or adding another, or proposing a different phasing of the activities). Such suggestions should be concise and to the point, and incorporated in your proposal]

**DESCRIPTION OF APPROACH, METHODOLOGY AND WORK PLAN FOR
PERFORMING THE ASSIGNMENT/JOB**

Technical approach, methodology and work plan are key components of the Technical Proposal. You are suggested to present your Technical Proposal divided into the following three chapters:

- a) Technical Approach and Methodology,
 - b) Work Plan, and
 - c) Organization and Staffing
- a) **Technical Approach and Methodology:** In this chapter you should explain your understanding of the objectives of the Assignment/job, approach to the Assignment/job, methodology for carrying out the activities and obtaining the expected output, and the degree of detail of such output. You should highlight the problems being addressed and their importance, and explain the technical approach you would adopt to address them. You should also explain the methodologies you propose to adopt and highlight the compatibility of those methodologies with the proposed approach.
- b) **Work Plan:** The consultant should propose and justify the main activities of the Assignment/job, their content and duration, phasing and interrelations, milestones (including interim approvals by the employer), and delivery dates of the reports. The proposed work plan should be consistent with the technical approach and methodology showing understanding of the Tor and ability to translate them into a feasible working plan. A list of the final documents, including reports and tables to be delivered as final output, should be included here.
- c) **Organization and Staffing:** The consultant should propose and justify the structure and composition of your team. You should list the main disciplines of the Assignment/job, the key expert responsible, and proposed technical and support staff.]
