Sir,

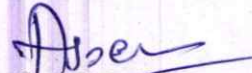

Sub : Safety measures to be observed while working.

Inspite of issuance of various circulars in the past, it is observed that proper safety precautions are not being scrupulously followed while handling of cargo.

In order to ensure proper measures for removal of unsafe practices/conditions during cargo handling, it has been decided to implement the following measures with immediate effect.

- All the personnel working inside the container handling area shall be wearing reflective high visibility waist coat.
- Contractors Safety - Daily safety instructions and tool box talk are given to the contractors, workmen and supervisors by the company engineers before commencement of work.

You are requested to inform your members for compliance of the above measures.
