No. TM/BDR/Mosquito Abatement/ 36

14 MAY 2024

All Vessel/Barge/Craft Owners/Agents

Sub: Water stagnation, promoting mosquito breeding thereby
at your premises leading to spread of dengue/malaria
diseases.

With reference to above, all barge/vessel/craft Owners/Agents are instructed that as conveyed by the MCGM regarding situation of rise in engue/Malaria in Mumbai. The major source of mosquito breeding which results into spread of Dengue/Malaria is inside cooling tanks, odd articles kept in the premises and on the barges/crafts, water accumulated in the tyres tied along the barges, scrap materials, tarpaulin any such articles likely to hold rain water etc. As per the directives of the Asstt. Commissioner, 'A' Ward, MCGM regarding Mosquito Abatement Treatment, all barge owners operating in Bunder area are directed to

- i) do the mosquito proofing of the tanks in your jurisdiction of operations,
- ii) remove scrap, old articles, tyres etc. to prevent mosquito breeding in the area,
- iii) puncture the tyres at the bottom, tied to the barges to drain accumulated water.

It is further requested to ensure general cleanliness and upkeepness in the Bunders for Mosquito Abatement.
